Tissue-Tek® TEC™ 6
Embedding Console System

Imagine… safe and reliable embedding with ease

continuous innovation for pathology

SAKURA

Full embedding control at your fingertips

The Tissue-Tek® TEC™ Series has been the Histology laboratory's preferred choice in embedding for decades. The Tissue-Tek® TEC™ 6 Embedding Console System continues that tradition while further enhancing the reliability, comfort, and ease-of-use that users have come to know and expect.

Designed to be the ideal tissue embedder for laboratories of any size, the robust and ergonomic modular system offers a streamlined, adjustable workflow that is both comfortable and simple to use for any user.

Tissue-Tek® TEC™ 6
Control your embedding experience

The TEC 6 is specially designed for full embedding control at your fingertips.
• Color touchscreen with easy-to-navigate onscreen controls allows easy setup and operation.
• With the programmable automatic ready and shutdown times you can be sure that the TEC 6 is always ready for embedding.

Comfort and flexibility in daily operation

With special focus on the user, the TEC 6 provides customisable comfort to manual embedding.
• The modular system allows left-handed and right-handed users operate the instrument conveniently.
• The adjustable LED work light can be dimmed or brightened according to your preference.
• With the detachable padded wrist rests, your staff is supported with ergonomic ease to prevent discomfort.

Safe and reliable embedding with ease

The TEC 6 is designed to increase safety even in the smallest details.
• Easy, software-driven cleaning mode for forceps wells reduces opportunities for cross-contamination
• The optional magnifying glass allows you to have a better view on the specimen and makes embedding of small tissues easy.
